# NICHOLL FIELD DESIGN WEBSITE

[WWW.NICHOLLFIELDDDESIGN.COM](http://WWW.NICHOLLFIELDDDESIGN.COM)

Using Squarespace designs and templates I modified I was able to create a website that had pages for individual projects that appeared more like sell sheets that viewers could then browse the site, location and architectural photography. Most of the photography on the site is mine.

Burke Development Associates

Brothers Bill and John Burke bring their vision, business and building acumen together to offer home buyers the opportunity to work directly with the builder and developer in crafting a luxury home, nestled in the natural beauty of the Hiddenwell property.

John Burke began his career twenty years ago in Colorado and Northern California, where he honed his craft building from the ground up, foundation to finish. From the first time John and Bill walked the 20 acre Front Street property, they envisioned an exclusive enclave of well designed and meticulously crafted homes for the discerning home buyer, situated on the most desirable location Middletown has to offer.

Burke Development Associates is a family business, and as such, can offer a more intimate and hands-on collaboration between the homebuyer and builder. Bill and John Burke partnered with long time family friend and architect, Hiland Turner, to provide timeless shingle style design inspirations that can be customized for the desired square footage and interior layouts to reflect the homeowner's personal preferences and lifestyle. Interior finishes, including hardwood floors, coffered ceilings, quality cabinetry, premium appliance packages and detailed trim work are standard, and reflective of John Burke's primary building standards.

## RAW IMAGES FROM THE STUDIO

These are some Raw images that I shot to test lighting configurations that I was incorporating into the SOP Workflow for the studio. In collaboration with other freelance photographers we fine tuned lighting placement while using cards and diffusion to manipulate lighting for the best results to provide to the retouchers.
